# MS SERIES MEGA SHREDDERS

scan here for video

Powerful, Efficient and Durable

**SWEED's industrial shredders are powerful, durable and versatile machines designed for heavy-duty applications and handle a wide range of materials.**

SWEED has two shredder options, depending on the material and volume to process. The MS3669 features a large chamber to take in bigger loads of material without bridging; the slower speed allows the unit to run bigger pieces of hard material without compromising the knives. This unit also runs grates (2" x 2" up to 3" x 6") versus screens, providing a larger opening for shredded material to fall through quickly. The MS2469 is a medium-speed processor providing smaller shreds (1/2" to 1 1/2") for applications with less volume and can also be used as a secondary processor to the MS3669.

*Both models can be used as standalone units or integrated into a complete processing system.*

## CONSTRUCTION FEATURES

- » UL 508A certified Control Cabinet with Siemens or Allen Bradley PLC & HMI
- » Electric or hydraulic drive available
- » Interchangeable screens
- » Processes tough materials
- » Bulk feed capacity
- » Simple to operate and maintain

MODEL MS2469

MODEL MS3669  
Shown with Infeed

- » Heavy-duty construction
- » One year warranty
- » Made and supported in the USA

# MS SERIES

## PRODUCT SPECIFICATIONS

### MS2469 PERFORMANCE DATA

Electric	150 HP
Electrical	3 PH – Multiple voltages available
Cutting Chamber	24" X 69"
Hopper Size	Customizable
Shaft Diameter	8"
Number of Rotating Knives	51
Number of Stationary Knives	18

### MS3669 PERFORMANCE DATA

Electric	150 HP
Electrical	3 PH – Multiple voltages available
Cutting Chamber	36" x 69"
Hopper Size	Customizable
Shaft Diameter	9"
Number of Rotating Knives	36
Number of Stationary Knives	3
