MODEL 480 WIDE INFEED CHOPPER

scan here for video

Highly Customizable Unit Suitable for Wide Scrap Applications

The Model 480 is a highly customizable unit often placed within a production line, but can also be used as a standalone unit and be manually fed.

The wide infeed on this chopper accommodates larger width scrap materials, while the internal design provides the versatility required to easily marry into a manufacturing line. **Custom stands and additional safety upgrades are also available.**

Material Reference

The recommended model of scrap chopper is determined by scrap size, scrap volume, and requested custom features. Please consult a SWEED representative to determine the appropriate scrap chopper for your application.

- » Most thin slitter trim materials up to 7" wide
- » Most flat punch press materials up to 7" wide
- » Most stamping materials up to 7" wide
- » Various light gauge metal materials up to 7" wide
- » For other materials, please consult SWEED
