MODEL 513 SCRAP CHOPPER

scan here for video

Reliable & Affordable Production

The Model 513 is a reliable performer for larger volumes of tough scrap materials. The thick, durable steel plate housing prepares this unit for an abusive scrap chopping environment.

The wide infeed makes this unit operational friendly; allowing for easy feeding of material. The Model 513 scrap chopper can be customized for inline automated production applications, and also has a variety of customizable options to meet specific scrap processing needs. The Model 513 is designed to fit on a SWEED stand that will accommodate a SWEED EZ Dump Hopper. **Custom stands and additional safety upgrades are also available.**

Material Reference

The recommended model of scrap chopper is determined by scrap size, scrap volume, and requested custom features. The following are materials commonly processed through the 513. Please consult a SWEED representative to determine the appropriate scrap chopper for your application.

- » Up to 1¼" x .046" domestic steel banding with clip
- » Up to 1¼" x .046" band saw blades
- » Various round and flat, mild steel, aluminum, brass, and copper
- » For other materials, please consult SWEED

The Model 513 is shown sitting on and over an optional basic stand and 1/2 yard self-dumping hopper.

CONSTRUCTION FEATURES

- » CE version available
- » Easy to reach "Feedworks Release" hand lever
- » Infeed restrictor plate for safety
- » Knives have 4 usable edges and can be rotated (3 times) for extended life
- » Made and supported in the USA
- » One year limited warranty
