

SG SERIES GRANULATORS

SWEED Granulators Offer High Performance, Low Maintenance, and Long Term Durability

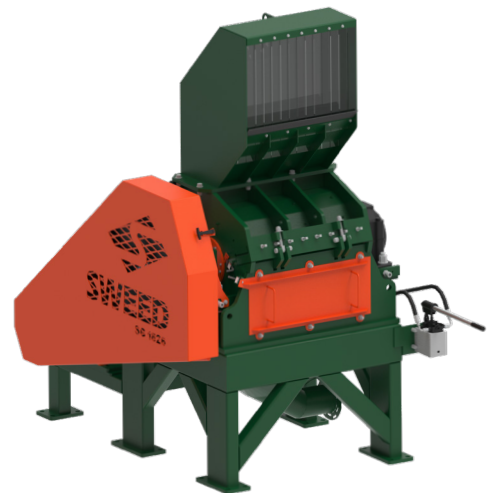

SWEED granulators are designed for demanding scrap applications. They are typically integrated within a complete processing system, used for secondary size and volume reduction, but can also be used as a standalone machine. SWEED granulators are capable of processing various scrap materials and produce a number of end product scrap sizes specific to the end user's specification.

CONSTRUCTION FEATURES

- » UL 508A certified Control Cabinet with Siemens or Allen Bradley PLC & HM
- » Extremely wear resistant
- » Simple maintenance
- » Interchangeable screens
- » Custom hopper sizes available
- » Made and supported in the USA
- » Processes tough materials
- » Simple to operate and maintain
- » Heavy-duty construction
- » One year warranty

OPTIONAL FEATURES

- » Able to accommodate multiple voltage requirements
- » Super E motor available
- » Additional screens available

SG SERIES

PRODUCT SPECIFICATIONS

SG1826 PERFORMANCE DATA

Motor	40 – 60 HP
Rotor Diameter	18"
Rotor Length	26"
Electrical	3 PH – Multiple voltages available
Dimensions	65" L x 52" W x 39" H
Approx. Weight	5000 lbs

SG1840 PERFORMANCE DATA

Motor	100 – 125 HP
Rotor Diameter	18"
Rotor Length	40"
Electrical	3 PH – Multiple voltages available
Dimensions	80" L x 77" W x 42" H
Approx. Weight	8600 lbs
