SS6K SERIES SHEATHING SLITTER

Robust Cable Sheathing Slitter Suitable for Tough Working Environments

The SS6K Sheathing Slitter Series provides companies with simple and efficient processing for virtually all cable types.

Both the SS6K100 and the SS6K50 are robust and durable cable strippers that will provide years of service. These units utilize multiple knife and guide profiles to accurately strip plastic or poly insulated cased aluminum or copper strand cable ranging from 1" to 2 1/2" in diameter. Up to 6 different profiles can be easily mounted at once minimizing changeovers.

The SS6K100 has high horsepower, an infeed speed that can vary from 0 to 100 FPM, and a jog reverse control option, while the more economical SS6K50 has a lower horsepower motor, a set infeed speed of 50 FPM, and no jog reverse option. SWEED also has the ability to customize their cable strippers to accommodate requests for additional performance and safety needs.

SS6K100

CONSTRUCTION FEATURES

- » Continuous speed
- » Auto shut-off at batch end
- » Non-jamming design
- » Made and supported in the USA
- » One-year warranty

OPTIONAL FEATURES

- » 2-stage option for Reda-Cable (SS6K100 only)

SHEATHING SLITTER

PRODUCT SPECIFICATIONS

SS6K100 PERFORMANCE DATA

Motor	15 HP
Speed	1-100 FPM
Electrical	3 PH – Multiple voltages available
Overall Dimensions:	57 1/8" L x 31 3/4" W x 62 5/8" H
Weight	2,080 LB

SS6K50 PERFORMANCE DATA

Motor	7 1/2 HP
Speed	50 FPM
Electrical	3 PH – Multiple voltages available
Overall Dimensions:	57 1/8" L x 31 3/4" W x 62 5/8" H
Weight	2,080 LB

Designed to Strip All Types of Cables
